

Understanding your Guarantee

As part of our care package we provide a Basic Guarantee administered by Auto Union Warranties Limited.

As a responsible dealership we must make you aware that this is a listed components guarantee designed to cover the main components of the vehicle, engine, gearbox and differential for one claim up to £500 which does not effect your statutory rights.

We offer a more comprehensive range of guarantees for your vehicle. Which are restricted by age and mileage over a variety of periods, this form is to confirm that you have received your guarantee and have been made aware of your cover level and upgrade options.

Please sign date and print below if you do not wish to upgrade and to confirm you understand your cover level.
