

This certificate is a term of ownership promise. We confirm to the owner of the above vehicle, that your supplying dealer has promised to MOT your vehicle each year without cost. The promise covers the MOT but not potential repairs that may be conditional of your car passing the test. The vehicle must be booked in advance and we would typically recommend 14 days to ensure availability. This promise can only be used at the supplying garages approved MOT centre and is no longer valid should the car be sold on.
